

Herz Skirting Board Profile

- Reduced installation times and cost
- Effective and economic alternative to other brands
- Available in two versions for more flexibility
- Pre-moulded joints for speed and simplicity
- End caps and roses available for a quality finish
- Both versions available in white, light oak, beech & birch finishes
- Integrated pipe support
- A cable duct can be fitted under the skirting and a power socket assembly then fits over the pair.
- Riser covers available in various sizes, with access panels

A quality system giving a superior finish to a project where surface mounting of distribution pipework is necessary during refurbishment due to the construction of the property.
