Field of application

HERZ- Compact distributors are interchangeable and can be interconnected. They are produced in individual components. When using HERZ compression union or HERZ plastic pipe connections, the operating data of the pipe joints must be observed (see corresponding data sheets).

Construction

HERZ- Compact distributors represent a simple system for individual connection of sanitary facilities. They are made of brass components nickel plated. The outlet pipes have male thread with taper for connection of copper pipes with HERZ compression unions or plastic pipes with HERZ plastic pipe connections. Shut-off or control valves with threaded sockets are directly connected. By using plastic pipe connections, the operating data of the pipe joints must be observed (see corresponding standard sheets)

Specification

Material	CC752S, (CuZn35Pb2Al-C), Hygienic drinking water suitable material for product group B and C, according ONORM B5014-3.
Max. working temperature	110°C
Min. working temperature	10°C
Max. Pressure	10 bar

 **Spare parts** separatly to order

1 8445 32	HERZ- Plug 3/4, nickel plated
1 8525 12	HERZ- Cap 3/4, nickel plated
1 8525 64	HERZ- Cap 1 1/2, nickel plated
1 8525 74	HERZ- Cap 2, nickel plated
1 8422 20	1 Pair Distributor mounting for 3/4
1 8569 xx	HERZ- Distributor cabinet
1 6294 01	HERZ- Compression unit G1/2- 15x1 for copper pipes
1 6092 xx	HERZ-Plastic pipe connection G1/2 for PE-X-, PB- and Aluminium composite pipes
1 6098 xx	HERZ-Plastic pipe connection G3/4 for PE-X-, PB- and Aluminium composite pipes
1 0674 xx	HERZ- Sleeves, recommend by using copper pipes

Dimensions and order numbers for copper and plastic pipes please take from the HERZ- product range.
