

# Thermostatic head Mini

“Think small”

-  The smallest thermostatic head in the world
-  Compact form
-  Installation in any position possible
-  Theft protection optional
-  Frost protection
-  Aesthetically pleasing design

# HERZ-Thermostatic head in compact form - "Think small"

011

The new thermostatic head "MINI" by HERZ is a great head, yet it is the smallest of its kind. It is so small that it is the only one to fit into this new market niche. In this way, "MINI" follows the trend of the best among recent high-tech achievements - great in performance, yet small in dimensions. And of course bewitching in appearance, meeting the most exacting requirements both in terms of elegant design and cutting-edge technology - in short, typically HERZ.

## Unbeatably small

The thermostatic head "MINI" by HERZ is a top achievement by our R&D engineers. It is unbeatable in terms of outside dimensions. With a length of 75 mm and a diameter of 45 mm, it is currently the smallest thermostatic head with hydrosensor in the world. With this size it will fit even into the smallest corner.

## Installation in any Niche

Packed with field-tested HERZ engineering, thanks to its compact size, the thermostatic head HERZ "MINI"

is particularly suitable for installation in areas offering little space.

## DE LUXE-model

DE-LUXE-model with chrome-plated handwheel are also available and provide in combination with DE LUXE valves a perfection in aesthetics.

## Theft protection

For theft protection, a snap-on clip, which can be fitted above the fastening nut, is available. A special key is required for opening the clip.

## Automatic frost release

The HERZ-"MINI" thermostatic head is available with automatic frost release or with "0" position. It is suitable for all HERZ thermostatic valves and radiators with integrated valves with M 30 x 1.5 threads.

## Limiting the temperature range

In addition, the temperature range of all models of HERZ thermostatic head "MINI" can be limited or locked by means of special limiting pins.

Order number	Dimension		Colour	
1 9200 30	M 28 x 1,5	"0" position	white	Classic
1 9200 60	M 28 x 1,5	frost protection	white	Classic
1 9200 38	M 30 x 1,5	"0" position	white	Classic
1 9200 68	M 30 x 1,5	frost protection	white	Classic
1 9200 13	M 28 x 1,5	"0" position	white	Turbo
1 9200 16	M 28 x 1,5	frost protection	white	Turbo
1 9200 93	M 30 x 1,5	"0" position	white	Turbo
1 9200 96	M 30 x 1,5	frost protection	white	Turbo
S 9200 31	M 28 x 1,5	"0" position	chrome	DE LUXE
S 9200 34	M 28 x 1,5	"0" position	white	DE LUXE
1 9200 03	M 28 x 1,5	"0" position	white	GS
1 9200 06	M 28 x 1,5	frost protection	white	GS
1 9201 00	Return temperature limiter	30-60°C	white	GS
1 9201 41	Return temperature limiter	30-60°C	chrome	DE LUXE
1 9200 83	M 30 x 1,5	"0" position	white	GS
1 9200 86	M 30 x 1,5	frost protection	white	GS
1 9200 48	M 30 x 1,5	"0" position	chrome	DE LUXE
1 9200 69	MMA	frost protection	white	GS
1 9200 24	Armal	frost protection	white	Classic
1 9200 19	Danfoss to 1981	frost protection	white	GS
