

Herz Fig No DR-T-90-LS

Lockshield return valves shall have a double regulating function, with tamperproof pre-setting by use of a special tool, allowing accurate balancing of the system; fitted with a lockshield cap. Removal of the double regulating insert must be achievable while the system is live and under full working conditions using a dedicated tool, allowing subsequent replacement or servicing. The valve shall be capable of being interchangeable with a thermostatic valve on the flow, rated PN10. The valve manufacturer shall provide a five year fully comprehensive warranty, covering parts, labour and consequential loss.
